

Cart Brake - Custom Applications

Application Data:

Cart Brakes represent an easy, low cost method of preventing castered equipment from accidentally rolling away from its desired position.

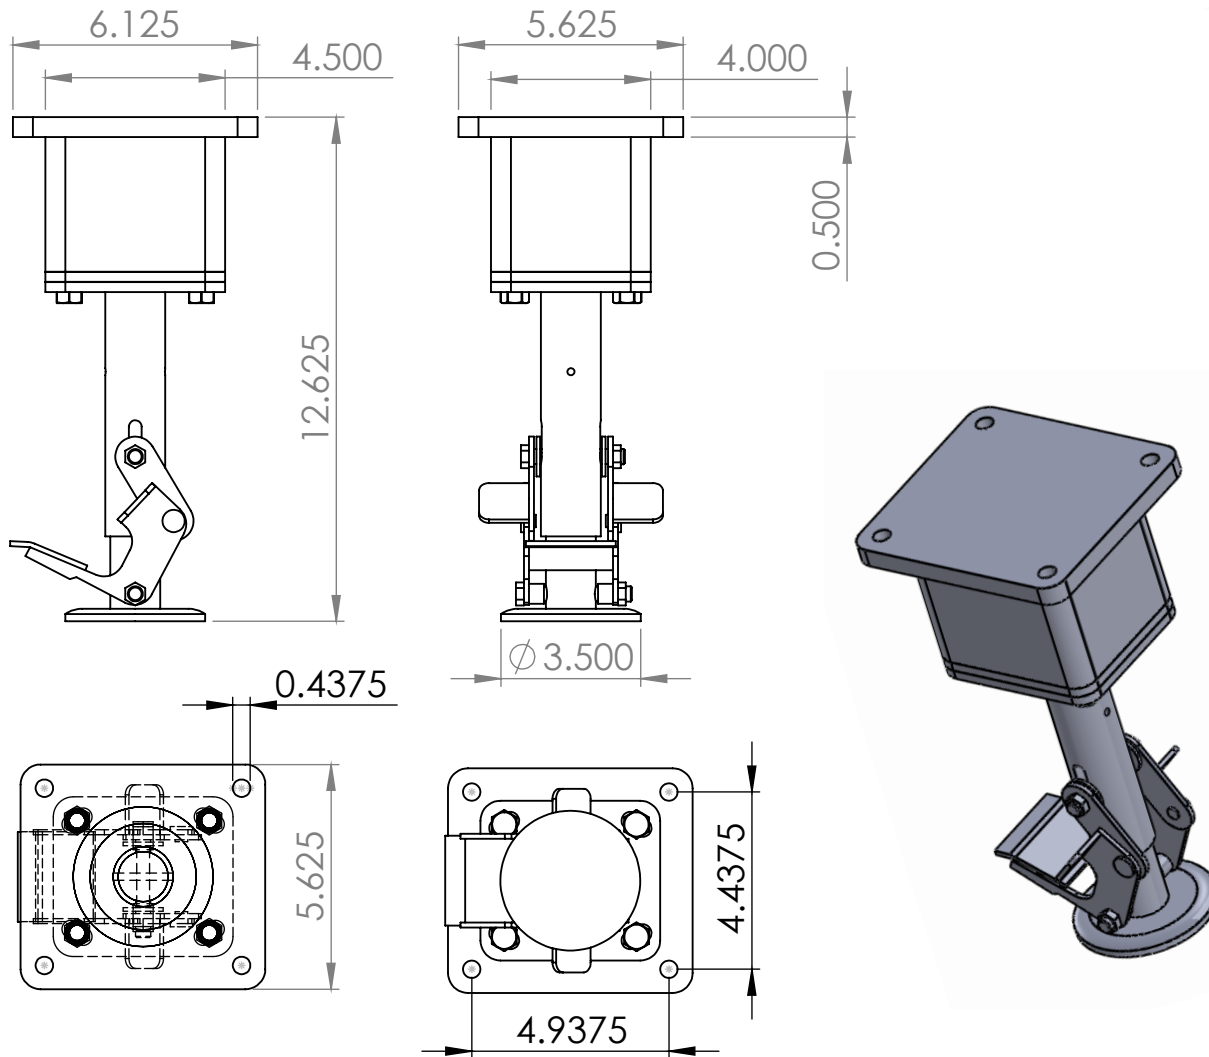

Depressing the foot pedal on one side forces the spring-loaded Neoprene brake shoe against the floor under compression. Stepping on the opposite pedal retracts the mechanism.

Adjustable Height:

Brake height adjustable from 12 5/8" to 13 5/8".

Part #

HCB-1358
