RE: Website Issue

Issue: Not Able To Enter Email Address

Dear Boeing Employee,

It has come to our attention that some users using Internet Explorer 6 (IE6) are unable to enter their email address to access the products on our website. We have narrowed it down to an IE6 issue (unfortunately IE6 has less than 2% usage in the USA) and have listed below (2) solutions:

1. Completely **close your browser**, then reopen your browser and click the following link:
www.harcourtind.com/cookie_reset.php
2. Another solution that others have found to work is to install a newer version of Internet Explorer, or if that isn't possible, have used Mozilla Firefox in place of IE6.

We sincerely appreciate your interest in Harcourt and our products, and apologize for any inconvenience caused as a result of the above issue.

For any further questions please contact us at: 800/888-5033 or sales@harcourtind.com

Thank you again!

The Harcourt Team
